

It's Easy Being Green! Reduce, Reuse, Recycle!

NOW OFFERING WEEKLY CURBSIDE RECYCLING PICK UP IN YOUR AREA!

We are excited to announce the roll-out of our new recycling program in your area. To implement this new program, we would like to give you two new wheeled totes; one for regular trash service and one for recycling. If you are currently paying for 1 – 2 bags per week, you will be issued two 65 gallon totes. If you are paying for 3 – 4+ bags per week you will be issued a 95 gallon tote for trash and a 65 gallon tote for recycling – at **NO ADDITIONAL COST TO YOU!!!**

Recycling will be picked up on the same day as your normal trash pick up.

A few thoughts on the recycling program:

*Please make sure your containers are washed out completely before you recycle them, as this is a huge help to the recycling center we work with.

* All recyclable material can be combined in one container; plastic, paper, glass, newspaper, etc. This is called single stream recycling and no longer requires sorting.

*Styrofoam and plastic bags are NOT recyclable. Please dispose of them with your normal trash.

If you have any questions, please don't hesitate to call the office at 570-255-2574.

Thank you!!
